

To whom it may concern at the FCC,  
As a daily listener and supporter of K-LOVE radio, I would like to inform you how important it is for me and my family of 6 to be able to listen to music that expresses our belief in God. This station backs up the principles that we teach our children. There are no rude comments with vulgar language, & there is a prayer support line that we can call anytime. This station is a positive influence on me and my family.

I have been supporting K-LOVE for several years now. Before it was on the air in my area I couldn't find a station with upbeat christian music. It was hard to teach my kids how to choose a station to listen to, because one song might be appropriate, but the next song would not. If K-LOVE is displaced we would have one other christian station, but the support we get from K-LOVE would be a great loss for our community, which needs as many positive influences as it can get for our children.

K-LOVE has been around for many years and as far as I know it has grown because of faithful supporters across this nation. Many people have come to know the Lord Jesus Christ as their Lord & Savior, because of what this station does for many people. They send a positive message of love & caring for one another.

I pray that as you make your decisions, that you think about the children & adults that have been & could be influenced by K-LOVE, which reaches out to the communities in which they are heard.

Sincerely in  
Christ,

LeAnne Ellis

P.S. WE also support Air 1, which is a wonderful station for our 2 teenagers.
